There are 5 new numbers in italics (attached to this email) . A concert committee with Craig Wilson, Lori Nowak, John Davelaar, and Syd Hummer will help me to cut down the selections to fit the time slots allowed.

I also plan to add 13 more songs from the various "open Mic" sessions and add them to the Dallas Ranch list as well as the follow on concerts at the Summersets in the Winter and Spring quarters. We will rehearse Knightsen during the first hour and all others during the second hour.
